ON YOUR MARKS, GET SET, ring°card – HERE'S HOW IT WORKS. -----

Ready to take advantage of the benefits of the ring°card? You're just three steps away from your goal:

1. Get your free ring°card from one of our ring°card teams, at the welcome°center or at one of the vending machines.
2. Load the card either to the ring°card team, at the welcome°center or at one of the vending machines.
3. Enjoy convenient cashless payment at all restaurants, bars and food stands: just put your ring°card on the card reader until you see the green laser light.

Funds on the card stay valid for two years. During that time you can also reclaim the funds at a ring°card service station.

GET THERE FASTER: TOURIST TRAINING LAPS ON THE NORDSCHLEIFE. -----

At the ticket counters at the Nordschleife and Breitscheid entrances, you can buy a ring°card for one or more laps, or as a season ticket, and top it up any time. Season-ticket holders receive a free ring°card wristband to use as an access ID.

To obtain access to the track, hold the card or wristband up to the ring°card reader on the entrance column. The display will show the number of laps. Once the green light comes on, you can remove the card and the gate will open.

Laps on the card stay valid until 31st December of the year in which they were purchased. The laps on the card cannot be redeemed.
